Unlimited game drives throughout the park.

Day 4: Ngorongoro Highlands / Lake Eyasi

Drive up the Rift Valley escarpment to the Ngorongoro Highlands for a guided two-hour hike through the forested highlands inside the Ngorongoro Conservation Area to a majestic 150-meter waterfall and elephant caves, so-called because the deep recesses in the valley wall are created by elephants digging the earth to ingest the mineral-rich soil. This soil also attracts buffalo, bushbuck, waterbuck, and baboons.

Continue southwest to Lake Eyasi. Walking paths carved through the lake shore forest allow visitors to experience this beautiful and unique environment on foot, where you may spot dik dik, bushbuck, vervet monkeys, and hippopotamus in the lake's environs. The area is also known for its abundant bird life. We set our camp in the forest along Lake Eyasi.

Overnight: Lake Eyasi Bush Camp.

Drive time to Ngorongoro Highlands: 1.5 hours

Drive time to Lake Eyasi: 1.5 hours

Day 5: Lake Eyasi

The Lake Eyasi area is home to the Hadzabe, the last remaining hunter-gatherers in Tanzania, and the Datoga, a proud pastoralist people who in an earlier time were fierce enemies of the Maasai. Spend the morning with an experienced guide and interpreter of the Hadzabe, where you will learn about their fascinating culture and survival skills in the harsh environment and have a bush walk and small game hunt. An afternoon visit to a Datoga compound to share their lifestyle is another unforgettable experience.

Overnight: Lake Eyasi Bush Camp.

Meals: B,L,D

Days 6 and 7: Serengeti National Park

Next stop is the Serengeti, Tanzania's largest national park. The 5,700 square mile park consists of treeless plains, savannah dotted with acacia and granite outcroppings called kopjes, riverine bush, and forest. Across its boundless expanse animals extend as far as the eye can see in a scene that exists nowhere else in the world and one that is quintessentially African. Game drive deep into the central Serengeti, where we set up our camp for two nights.

On these days, your SENE guide, a trained expert in East African wildlife and ecology, will explore with you the vast Serengeti in search of the best game-viewing opportunities, dependent on the seasonal and daily migration patterns. You may take early morning pre-dawn game drives and late afternoon game drives at dusk - the times of the day at which the animals are most active - with a rest at camp for lunch. Or take a full day game drive with a picnic lunch to explore a greater range of the Serengeti.

Overnights: Seronera Camp.

Meals: B,L,D

Drive time to Serengeti: 3 hours

Day 8: Serengeti National Park / Olduvai Gorge / Ngorongoro Conservation Area

Take a final morning game drive through the magical Serengeti.

On our return east, stop along the way to visit Olduvai Gorge, site of Louis and Mary Leakey's archeological discoveries of early human ancestors, and enjoy a

picnic lunch. Continue on to the cool and verdant rim of the Ngorongoro Crater. Simba (Swahili for lion) camp sits at 7,000 feet on the rim of the Ngorongoro Crater with incredible views down to the floor of the caldera.

Overnight: Simba Camp.

Meals: B,L,D

Drive time to Ngorongoro Crater rim: 3 hours

Day 9: Ngorongoro Crater

After an early breakfast, descend nearly 3,000 feet to the floor of the Ngorongoro Crater, where the 100 square mile extinct caldera teems with wildlife in such density and abundance that it is almost too hard to believe. Every game animal – both predator and prey – in East Africa can be found here, with the exception of giraffe and impala. The crater is the best place to spot the rare and elusive black rhino and old bull elephants who come there to “retire” and enjoy the sweet swamp grasses. Picnic lunch in the crater.

Overnight: Simba Camp.

Meals: B,L,D

Day 10: Arusha / Mbahe Village, Kilimanjaro

Today we return through Arusha Town, the bustling commercial capital of northern Tanzania. There will be time for shopping and to tour this colorful town. Arrive in the late afternoon at SENE’s private Mbahe Village Farm House cottages, at 2000m/6,000 feet nestled among the lush tropical forests near the border of Kilimanjaro National Park. The completely organic farm produces coffee (processed and roasted on-site) and contains gardens of organic vegetables, bananas, and honey, which provide most of the ingredients in the fresh home-cooked meals. While staying at the Mbahe Farm House you can take guided walks through the village or hikes on the mountain, visit the local primary school, learn about the area flora, go for a refreshing swim below the Moonjo River waterfall that sits on the property, warm up next to the living room fireplace, or just sit on your veranda with a cup of freshly brewed coffee admiring the sweeping views of the valley.

Overnight: Mbahe Farm Cottages.
